PRICE THREE CENTS

HE PAID THE PENALTY.

Benjamin Radcliffe Hanged at
Canon City, Colo.

HE MURDERED THREE MEN.

Located them in a schoolhouse, and as
they were cornered and hanged
in the hall there that with
the knife as the phrase.

CANON CITY, Colo., Feb. 8.—Benjamin Radcliffe, the slayer of the entire
board of Jefferson district, Park
county, was hanged at the penitentiary
last night at 8:55 o'clock.

The crime for which Benjamin Radcliffe
suffered death was one of the most
startling in the history of Colorado.
Prompted by a desire for revenge for
what he considered a grievous wrong,
he deliberately shot down in the school
house at Jefferson, Park county, the
three members of the school board,
Samuel Taylor, Lincoln F. McCurdy
and George D. Wyatt.

The cause of the trouble was the
circulation of reports of alleged criminal
attorney between Radcliffe and his
niece's daughter, a girl of 18. These
reports Radcliffe attributed to McCurdy.
He had also a fancied grievance against
the other members of the board over
the location of the schoolhouse.

None of the victims were armed, and
Radcliffe, after he had shot his way
in and the door there was no escape.

his children on Feb. 16 by placing ar-

some of the poisoned coffee and after-
ward cut his throat, but survived.

Much Trouble.

or two, who were also members of the

HARVEST FOR BARBERS

Koreans Ordered by the King to
Get Their Hair Cut.

THE FAITHFUL UP IN ARMS.

Some Have Escaped to the Mountains
and Declare They Will Fight to
Death Rather Than Part
With Their Queens.

HONGKONG, Feb. 8.—Of the many
changes introduced in quick succession
in Korea, the recent adoption of the
western method of hairdressing has at-
tracted most attention. The king re-
cently issued a proclamation urging the
sacrifice of the queues, and set the ex-
ample by having his own hair cut, the
prince royal following suit.

The proclamation created consterna-
tion both in official and private circles.
The minister of education resigned and
retired to his country home when his
protests at the innovation were disre-
garded. Many lesser government offi-
cials also resigned rather than sacrifice
their locks.

The proclamation excited alarm
among the people at large, but at each
of the four gates of the capital con-
stantly are posted to await the coming
of country people to compel them to
submit to the barbers, who are waiting
for their hair. Western hats and coats
are generally adopted by those who leave
their queues.

In the rural districts the Koreans have
broken out into actual rebellion at the
proclamation. Many local governors
have resigned their posts owing to their
unwillingness to cut off their queues.
Several hundred people have fled to the
mountains and as many more are under
arms preparing to attack the Korean
troops.

The rebellion in Formosa is unchecked.
One group of rebels has taken up
its position at Tzu-Wu and another has
assembled at Camphur mountain. The
Japanese troops are confident of defeat-
ing the rebels, but can not attack them
in their mountain retreats.

SHE WAS HORRIFIED

To See Her Baby Carried Into the Air
by an Eagle.

GAINEVILLE, Pa., Feb. 8.—Harry,
the 2-year-old son of Mr. and Mrs. J. L.
Mason, was carried 100 feet in the air
by a big eagle and then dropped to what
seemed certain death. The child was
wounded and the eagle makes its
home and watches over one young eagle.
As Harry's mother approached the eagle
hearing the child in its talons.

Nearly 100 feet the bird ascended with
the baby, when the young eagle began
to scream and the mother bird slowly
descended. When still about 40 feet
from the ground the eagle dropped the
child and fell striking and lodging in
a thick cedar tree. As the baby fell
Mrs. Mason ran out her husband
who had just come up, quickly
rescued Harry. The boy was stunned
by the fall but no bones were broken
and he was soon conscious.

Practically Reached an Agreement.

CANON CITY, Feb. 8.—Representatives of
the Colorado-Utah lines met here to
consider the terms on which they will
become members of the Western Passen-
ger-service and put their business
under the protection of its trans-Missouri
committee. When they adjourned
they had not reached a final decision on
the subject, but the terms had been
settled so far that it might be
expected that the lines finally becoming
members.

THE FUTURE IS ALL RIGHT.

The Present, However, Is Not Nearly as
Good as It Might Be.

New York, Feb. 8.—H. G. Don &
Company's weekly review of trade says:
The wonderful success of the popular
bean alters the face of events. It strips
the silver agitation of all its power to
hurt. It notifies foreign nations that
the United States has power as well as
purpose. It unlocks millions of gold
which have been gathered in prepara-
tion, brings directly several millions of
gold from Europe and stimulates the
activity of foreign investors to obtain
American securities.

There are signs of improvement in
the iron manufacture, although the
average of prices is nearly 1 per cent
lower. Orders for wire nails are stimu-
lated by a decision to advance the price.
There is also a more active demand for
plates and sheets. Southern competi-
tion lowers coke iron at Chicago and
prevents advance at the east. Specula-
tion has raised copper to 19 1/2 cents, tin
to 12 1/2 cents and lead to 11 1/2 cents.

Sales of wool have been 4,666,200
pounds against 5,192,130 last year. The
cotton mills continue generally active.
Prints do not rise above 2 1/2 c. and
some goods tend lower. Speculation in
wheat has again lifted prices 3 1/2 cents
for cash and 2 1/2 cents for May. Corn
has been comparatively steady. Cotton
is practically unchanged.

Exports this week have been 523 in
the United States against 281 last year,
and 63 in Canada against 58 last year.

CONSUMPTION CURE.

Dr. Cyrus Edson Makes Public His Re-
cent Discovery.

New York, Feb. 8.—Dr. Cyrus Edson
has published a description of a discovery
made by himself, which, it is held,
may solve the hitherto unsolved prob-
lem of the cure of tuberculosis. He
proved the effectiveness of carbonic acid to
destroy germs by cultivating a colony of
the latter, and then floating over them
a solution of the acid. The germs were
killed at once. But it was found that
an injection of acid would kill, so the
doctor's task was to concoct a solution
of carbonic acid with other chemicals to
counteract its poison sufficiently to pre-
vent fatal consequences. In this he
succeeded last September.

The combination is according to the
following formula: Water, 72.211; per-
cent, phosol, 2.740; per cent, glycerol,
phenyl-hydroxide, 0.0188 per cent. The
result Dr. Edson has named asperol.

To date 317 persons having consump-
tion have been treated with it. Of these
four have died, and improvement of the
four others. The rest, 313, showed
improvement. Of these 28 have been
discharged cured, and 87 will, in the
opinion of the physicians having the
cases, be discharged cured, making 90
in all.

less parliament could find nothing else
to do.

STREET TALK.

Judge Richie on last Monday at Wapakoneta granted Vansilver a new trial. The Judge presented a very able argument in giving his reasons for granting a new trial—*Cridersville Record*.

According to the report of the grand chief of the Brotherhood of Locomotive Firemen, there are 493 lodges in that order at the present time, 23 lodges having been instituted in 1895. The increase in membership during the year was 2,655, and for that same period 223 death and disability claims were paid.

Frank Killian, of Lima, has taken up his duties as assistant engineer at the Federal building. He succeeds Frank Healey, who has accepted a position on the Ohio Southern road.

The other evening a seance was in progress in the west part of the city, an alleged medium being present from Ft. Wayne. The lights were turned down and spirits began to move. In the audience was a certain young attorney who did not believe in manifestations and when the medium appeared before him in the form of an uncle of the deceased and proclaimed himself as such the young attorney told him he was mistaken—that it was his grandfather who bore that name—and reaching out grabbed the spirit and caused such a commotion that the seance was broken up. The affair caused considerable excitement and the young man took his departure stating he was entirely satisfied with the results of his visit. The medium is said to have left the city.

First South Lima man—"Gracious! how the wind has risen. Hear it howling."

JOTTIN'S.

The Current Events Club of West Wayne street met at the home of Mrs. J. T. Tabler Friday afternoon. Papers were read by Mesdames Phillips and Simpson and a review of "Trilby" was begun; three chapters to be read at each meeting until finished. Dainty refreshments were served at the close of the program. The next meeting will be held at the home of Mrs. R. W. Wallace.

The recent interest in spiritualism recalls an incident which took place some years ago in the eastern part of this State. A wave of spiritualistic demonstration was sweeping over the country and crowds of country people assembled nightly at the different farm houses where the seances were held. Many became mediums and the excitement was at fever heat. In one family a young man of perhaps twenty-five or six years, suddenly became possessed of the notion that the spirit of a deceased relative, a German, dominated him, and at one of the public demonstrations, in full view of the entire audience, he took up pencil and paper and rapidly wrote a two or three page letter in the German language.

No one present could interpret it nor did the young man himself know one syllable of the language. In fact he was extremely ignorant and uncultured.

At length a young German employed on a neighboring farm as carpenter, who had scoffed at the "rappings" and "table lifting," was asked to translate the letter. To his utter amazement it was a well composed epistle, couched in grammatical terms and irreproachable orthography. It was a blue day wonder to the sceptical and a triumph for the sect. Whether it was legerdemain, hypnotism or what not, I have no theory, but simply give it to you as it happened. A Sevensday may have been casting his baleful eye on the poor lad but the fact remains.

There must perforce be two sides to every question, and certainly the relation between shopper and salesman is no exception to this rule.

Volumes have been written and tons of sympathy expended in behalf of the "overworked" and sometimes "poorly-paid" clerk; but did it never occur to anyone that this same object of commiseration could and actually does make things mighty uncomfortable for the hapless man or woman who must patronize their counters?

"I can think of nothing more exasperating than to come in contact with one of those superior, patronizing, come-down-off-the-perch individuals who can, with one withering look, make you feel like apologizing for having suddenly found yourself in need of the goods they provide over. And if you should chance to intimate that you had a dim idea of the kind of goods you wanted, you are promptly sat down upon and made to feel that your taste was unpardonably rustic and quite the opposite of the de-sei-see."

I have in mind a little scrimmage of this sort in one of our popular stores, but, as Kipling says, "that is another story."

A funny thing happened the other day on Main street. A man and woman were approaching each other and began that idiotic series of passes first to the right, then to the left—in order that each might go by the other. If you have ever tried this fascinating exercise you will know that as you get warmed up to the work you find it extremely embarrassing. After a series of dodging the man at last made a plunge just as the lady had decided to do the same. Consequently the two came together with a force that was startling. A smothered little "oh!" came from the lady's lips while the man lifted his hat and muttered something meant to be polite but it would not go well with a halo.
